---

Results-oriented product manager with over 4 years of experience developing and shipping products, from ideation to launch. A fast and eager learner, adaptable to changing business goals and team constraints and resources. Comfortable communicating product visions among different stakeholders, from technical audiences to leadership teams.

## EDUCATION

### Master of Business Administration (MBA) September 2020 – May 2022

Rotman School of Management (University of Toronto), Toronto, Ontario

- 3.62 GPA, Peter Godsoe/Scotiabank Scholarship (2021), and Jeffrey Skoll BASc/MBA Award (2020-2022)
- Major in Strategy, Entrepreneurship, and Management
- Worked full-time during the program, member of 7 clubs (i.e., Finance and Entrepreneurship), tutored several courses

### Bachelor of Applied Science (BASc) - Engineering Science September 2016 – May 2020

University of Toronto, Toronto, Ontario

- 3.68 GPA, President's Scholarship (2016-2020)
- Major in Artificial Intelligence and Machine Learning, published a thesis alongside Prof. Anthony Niblett (AI + Law)
- Member of 3 clubs, consulted for North York General Hospital to optimize ER throughput

## PROFESSIONAL EXPERIENCE

### Director of Product October 2025 – Present

WELL Health Technologies, Toronto, Ontario

- Director of Product for the Clinics BU at WELL Health Technologies (Primary Care, Tia Health, Longevity, etc.).
- Crafting and leading broader product strategy to drive innovation in healthcare delivery.

### Lead Product Manager January 2024 – October 2025

Tia Health, Toronto, Ontario

- Led product for Tia Health and Insig Health, Canada-wide virtual care and telehealth platforms, crafting product roadmap and development using agile methodology
- Launched a new patient portal with an intuitive UI adhering to interoperable standards (FHIR).
- Developed and launched new comprehensive care programs, generating new revenue and partnerships.
- Drove external reviews such as TrustPilot from 1.7 to 4.4, by investing and improving key patient workflows.

### Product Manager January 2022 – January 2024

Tia Health, Toronto, Ontario

- Managed development of a new booking flow for Tia Health from ideation to launch, improving booking conversion by over 100% compared to the old booking flow
- Built a brand-new portal for customer support, improving our customer response time and internal efficiency by 3x

### Business Analyst September 2019 – January 2022

Tia Health, Toronto, Ontario

- Implemented in-platform billing solutions for doctors that led to a roughly 50% increase in captured revenue
- Worked with the software and business development teams to create and develop a new doctor onboarding flow (reducing onboarding drop-off by 18%), and implementing patient review systems
- Developed real-time logging of key metrics and implemented internal alarms to report user experience errors

### Full Stack + AI Engineer May 2019 – August 2019

Engineering.com, Toronto, Ontario

- Led development of an AI-powered article recommendation system based on user preferences, increasing user engagement rate (i.e., likes) by roughly 15%
- Collaborated with other developers to restructure aspects of the user experience, including adding a "Related Articles" section, significantly reducing the bounce rate across the site

## **Software Engineering Lead**

May 2017 – August 2018

Jablonsky, Ast & Partners, Toronto, Ontario

- Designed and built software that automated the manual data entry workflow and presented findings to the partners. Implemented this solution across the company, saving roughly 80 working hours per month

## **ADDITIONAL INTERESTS AND ACHIEVEMENTS**

- **Projects:** Co-founded ShiftAI (a decision tool for NHL teams powered by machine learning), and Sked Inc. (an aid for employees that automated scheduling and payroll)
- **Skills:** Advanced experience in machine learning (PyTorch, TensorFlow), programming (Python, C, JavaScript, Java, Node.js), AWS, web development frameworks (Angular, Vue.js), fluent in Italian, intermediate knowledge of French
- **Other:** Member of the Creative Destruction Lab (CDL), peer tutor, mentor, and a judge for the Hatchery competitions
